

Ryan's Quest Valentine Ball
WINTER WISHES

FEBRUARY 13, 2016 • WESTIN PRINCETON

Join us in celebrating the accomplishments of Ryan's Quest and helping to make our greatest WISH come true - a treatment or cure for Duchenne muscular dystrophy
 6pm Cocktail Reception | 7 pm Dinner and Dancing | Over 500 guest will Attend | Silent Auction | Performance by The Nerds

Our Mission

Raise awareness for Duchenne muscular dystrophy (DMD) with the purpose of allocating funds for research that has the greatest potential of finding a treatment or cure for this disease.

About Duchenne Muscular Dystrophy

This disease is the number one lethal genetic disorder of children worldwide. It is a progressive muscle disorder that causes the loss of muscle function and independence. Boys affected by Duchenne, lose the ability to walk between the ages of 8 and 12, require respiratory support by their late teens and survive only into their twenties.

Specific Areas of Interest

Ryan's Quest is primarily focused on supporting research for near term, potential therapeutics and better testing platforms (tools) for development of Duchenne compounds. We are also interested in helping support families that are enrolled in clinical trials.
