The Mission of Ryan's Quest

The mission of Ryan's Quest is to raise awareness for Duchenne muscular dystrophy with the purpose of allocating funds for research that has the greatest potential of finding a treatment or cure for this disease.

This disease is the number one lethal genetic disorder of children worldwide. It is a progressive muscle disorder that causes the loss of muscle function and independence. Boys affected by Duchenne, lose the ability to walk between the ages of 8 and 12, require respiratory support by their late teens and survive only into their twenties.

Please visit www.RyansQuest.org/funding to view our research portfolio.
